THETIS SALVAGE OPERATIONS DELAY SUGGESTION OF

BRINGS STRONG PROTEST

To Proceed To Gear Ready Spot Day After Disaster

SUBMARINE HAD LIST TO

LONDON, JULY 10 (REUTER)-A PROTEST AT SUGGESTION-DESCRIBED BY THE PRE-SIDENT, MR. JUSTICE BUCKNILL, AS MISLEAD-ING AND UNFAIR—that there was a delay in the Thetis salvage operations was voiced by counsel when the inquiry into the disaster was resumed to-day.

Counsel for the relatives of an apprentice suggested that nothing had been done regarding the salvage of the Thetis by 5 p.m. on the day following the

ders of the submarine, protested stores were taken aboard the suband declared that the suggestion marine. was improper as gear was ready to proceed to the spot at that time. When he stated that the gear was 30 or 40 miles away and first counsel maintained that he was justified in his contention, the President remarked: "To suggest that nothing was done until 5 p.m. is rather misleading and unfair."

SLIGHT LIST Evidence was given by an em-

ployee of Cammel, Laird.

The witness said that he found a slight list on the submarine before the vessel went out on trial. He produced a paper on which he had made observations which showed that the Thetis had a 21 inch list to port.

He reported his observations and was told that the ship would be

City Wins Prove British White "Old Guard" Still Good

Wooderson Wipes Out Memory Of Princeton Debacle

WHILE IN MANY OTHER PARTS of the world the athletic champion of to-day is no longer on the athletic horizon the following year, in Britain, year in and year out, a few stalwarts who won their international colours four and five years ago continue to give to British athletics the prestige that comes of old age and the life that might well make tremble the most seasoned American champion and the most tireless Flying Finn.

With the defeat in America of Sydney Wooderson, one would logically conclude a decline would set in in British athletics, or perhaps only in middle distance running, which would set back athletics in England for two or three years. "Black Bradman" Breaks Backs Of Bowlers

Makes History At Lord's But Team Beaten In Fine Game

GEORGE HEADLEY, the "Black Bradman" made cricket "history in the Test match concluded at Lord's eleven days ago, when he became the first man to hit two separate hundreds in a Test played at the "Mecca" of the game. He was the only West Indian who really mastered a lively attack, well led by Bill Copson.

There was a terrific burst of cheering when he reached his second century, and Mr. J. M. Kidney, manager of the touring team, later paid a striking tribute to the sporting attitude of the English crowd when he said: "When Headley got his century in the second innings, the applause couldn't have been more generous had he been before his own crowd at home." Below a special Home correspondent writes on the

concluding stages of the game:-LONDON, June 28.—England beat the West Indies in the first Test Match at Lord's yesterday by eight wickets, but with only half an hour to spare. England no doubt were the better side; they held the advantage throughout the game; yet there was a time yesterday when the West Indies fought back so well that it seemed that they were likely to deprive England of sufficient time in

which to win the game. There was a buzz of argument in the morning as to whether W. Hammond should declare England's innings closed with a lead of 127 runs or whether it would be better to gain some quick runs, with Hardstaff (still there, and attempt to force an innings victory. Harmond decided to send the West Indies in again at

The wicket was still good, fast and true, in the morning when the West Indies started their innings. Bowes bowled an over from the Pavilion end, and when Copson came on at the other end in his first over he had J. Insist on Gillette . . . don't think that you will save money by using inferior low-priced blades. It is false economy. To reduce your shaving costs to a minimum, buy Blue Gillette blades and a Gillette razor.

Blue Gillettes are designed to fit Gillette razors perfectly. The two work together. as a team to give not only the greatest number of shaves per blade, but also the cheapest, cleanest, easiest shaves it is possible to have.

FRENCH POLICY IN SYRIA

BEIRUT, July '10 (T/Ocean)-The French Government has given the French High Commissioner in Syria dictatorial powers over Syria

The decree issued by the High Commissioner M. Gabriel Puyaux, (June 11). suspends, for the time being, those articles of the Syrian constitution which refer to the guaranteed executive and legislative rights of the Syrians.

The decree, moreover, orders the dissolution of Syrian Parliament and declares that the elections for new Parliament will not be held for the time being.

The High Commissioner, Puyaux, delegated the executive powers to a directorium, which is composed of the directors of the various Government departments and headed by the director of the Domestic Affairs department,

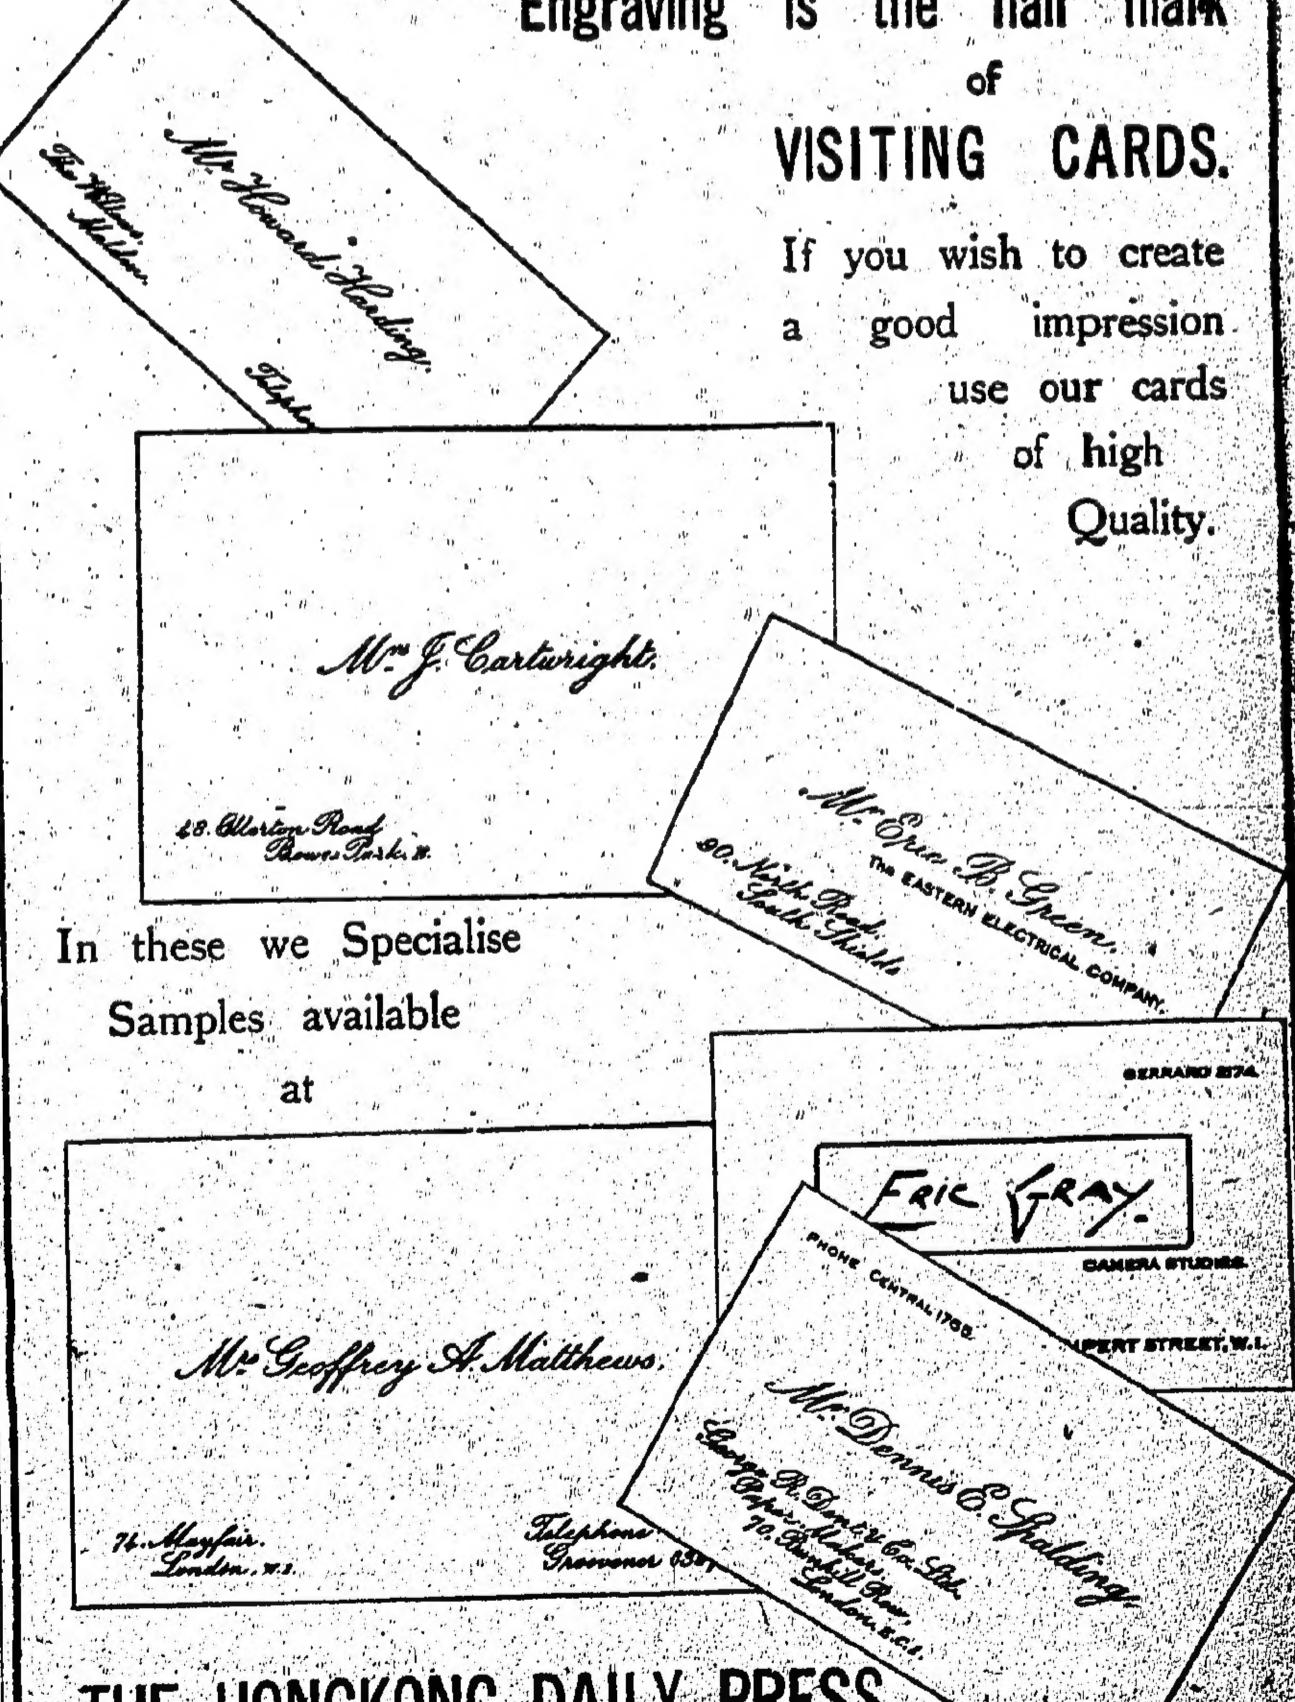

M. Puyaux declared in a broadcast that the French Government wishes to leave no doubt that France intends to hold her positions in the Orient for a long time.

A JAPANESE PROPHECY

Sir, - The danger situation into which Japan might be drifting has been templated and deprecated by her own technical observers. In foreword of his "Japan Must Fight Britain," Lt.-Com. Tota Ishimaru wrote in 1936;-

If in any country, the soldiers and the sallors control the conduct of foreign affairs, that country will be beaten in war. This is the truth, though it sounds untrue..... Ignormg diplomacy, setting up a military despotism is to repeat the mistake that led Germany disaster: it is not the way to make our country great. I am, Sir,

IDIOT'S DELIGHT DUE IN H.K. SOON

The following is an article on the foremost subject of the day. by Robert E. Sherwood, the noted American dramatist, who won the Pulitzer Prize for his stage play "Idiot's Delight," which was adapted by Metro-Goldwyn-Mayer for the screen and which will be shown shortly at the Queen's and Alhambra theatres.

Let me express here the conviction that those who shrug and say, "War is inevitable," are false prophets. I believe that the world is populated largely by decent people, and decent people don't want war. Nor do they make war. They fight and die, to be sure but that is because they are deluded by their exploiters, who are members of the indecent minority.

still go on. If decent people will last seen in Columbia's "There's B. B. Tan. "The Romance of Photo-Of course, this delusion may continue to be intoxicated by the pumped into them by megalomaniac leaders, and will continue to have faith in the "security" way into the lives of the young provided by those lethal weapons sold to them by the armaments the refinery. industry, then war is inevitable: and the world will soon resolve Wells presents the spirited comedy itself into the semblance of an unt hill, governed by commissars who owe their power to the profundity of their contempt for the melodramatic developments, melotheir drama that is given the air of mdividual members species.

ground of a huge oil refinery in SERMON ON THE MOUNT But I don't believe this will be so. I believe that a sufficient number of persons are aware of the persistent validity of Sermon on the Mount, and they remember that, between 1914 and 1918, twelve million men died in violence to make safe for democracy the world which we see about us to-day. That awareness and remembrance can be strong enough to resist the forces which C. H. Haines, Coroner in H. M. Powould drive us back into the confusion and the darkness and the filth of No Man's Land."

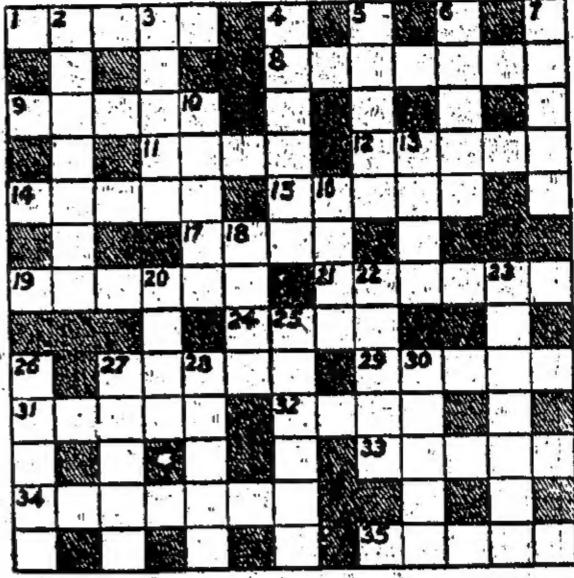

The megalomaniac, to live, must inspire excitement, fear and awe. If, instead, he is greeted with calmness, courage and ridicule, he becomes a figure of supreme in-

significance.... By refusing to imitate policies of heavily fortified isolation..... hysterical self-worship and psychopathic hatred of others, we may achieve the enjoyment peaceful life on earth, rather that degraded death in a cellar

AND LOSING ITS STARCH?

According to a military correspondent, 'The Japanese front in China is four times the length of the Western Front in 1918 No wonder it's "dickey"!

Fred Astaire went to New York the other day for a few days holiday. As the train pulled in a policeman pushed back a crowd of men and women who were struggling forward for a glimpse of the star "Get back, get back there!" said the policeman brusquely. "He don't want to be bothered by autogarph hounds!"

One of the characteristics of Burma is high indirect taxation. Heavy Customs and even Excise tariffs are chief features. instance, a levy of 37 per duty on American motor-cars when a country badly needs increased motor transport seems out of place,

More liberal allowances will have to be made for invoices, and the individual firm at home which has a representative agent already in the field must be prepared to finance such increases.

That China is ready and anxious to come more than half-way is shown by her opening in Rangoon, of a branch of the Bank of China and of agencies such as the South-Western Transport Company.

FERRY SERVICE

COMPLAINT [To the Editor, the "Hongkong Daily Press']

Sir,-Many people have suffered in the matter inconvenience and time as a result of the irregular service provided by a ferry company who do not seem to care whether the passengers are well taken care of or not but few have liked to make any complaint either to the traffic department or through the press about the incompetence of the company's management of its businese whose primary object should be to cater to the public's convenience, being a pub-

lic utility. I am one of the passengers of the Hongkong and Shamshuipo Ferries who has suffered through loss of time caused by the urregular service provided by these ferries and think that it is only right that this complaint should be brought to the public's notice.

When you fail to catch a ferry which has only just left, the iron gate being shut in your face, you think the next ferry will soon be in and after embarking its passengers will leave again according to the time-table. This does not however, happen. After sitting inside the wharf for 10 minutes or so you can't but help peep through the wooden rampant to see if you can sight the next ferry. But unfortunately there is none in sight: I suppose it is coming along the sea leisurely.

Yes, sir, the ferry will probably speed up at a remote corner of the other side of the river. In this way it would appear that the Company is trying to save the expenses of running its ferries by three or four trips less a day.

The waiting room is invariably so crowded with passengers who have collected there through the ferries not running according to time-table and overlapping in consequence of which instead of there being two ferries to take the passengers"there is only one.

You desire to look for breathing space whilst waiting for the next ferry and from my own experience, the only empty space is the wharf's latrine which always smells far from pleasant, is at least broad enough for you to stand in com-

Mr. Ellis Roberts's Portrait

Portrait of Stella Benson, By R. Ellis Roberts, (Macmiliai, 15s). Memoirs of the living or the lately dead are usually a thankless task. Susceptibilities are still easily hurt, and there is the law of libel, a very present help to contemporary reputations in time of trouble.

In his "Portrait of Stella Benson" Mr. Ellis Roberts has scrupulously refrained from intruding upon his subject's privacy. He records her shifting moods, but is often unable to reveal the circumstances which gave rise to them. The result is sometimes rather like Hamlet's soliloquies without the

Given this inevitable limitation, Mr. Ellis Roberts has succeeded in portraying a talented writer, whose temperament made it difficult for her to be happy, and whose life gave her little ease. Sympathetically and skilfully he describes her childhood, the time she spent in Hoxton, her visits to California and China, her marriage and residence in various Chinese stations, where she found the company ill-health

Hon. Mr. Lo On Finances And Contribution Of Chinese Teams To Success

"It should be borne in mind that in the matter of gate receipts the Association has to depend more or less entirely upon the success of the Chinese teams. Experience has shown that so long as there is a Chinese team in a competition substantial gate receipts may reasonably be expected and that, directly all Chinese teams have been eliminated, the income automatically becomes almost negligible."

This observation on the extent to which the Hongkong Football Association was dependent upon its Chinese member-clubs for financial success or failure was made by the Hon. Mr. M. K. Lo, H.K.F.A. Vice-President, when he presided at yesterday's annual general meeting of that body. SOUTH CHINA'S YEAR

It has, indeed, been the S.C.A.A.'s year, for, apart from winning the Senior Challenge Shield and the First and Second Divisions of the League, this Club supplied most of the players for the teams winning the Governor's Cup, the Sunday Herald Cup, and the Lai Wah Cup.

It is a matter of great personal satisfaction and pleasure to me to pay this tribute to the S.C.A.A., in view of my long and intimate association with the S.C.A.A. of which I have the honour of being Honorary President.

You will remember that two seasons ago the Association received a letter from the Philippines Amateur Athletic Federation, suggesting the introduction of a series of interport matches with Manila. This matter was taken in hand by the Council, resulting in Manila being invited to visit Hongkong in February, with the Colony returning a visit, in April. These matches were great successes, and constituted the outstanding events of the season.

NON - SUCCESS AFTER JAPANESE YEARS OF WAR: WARNING FORTHCOMING TOKYO TALKS

LONDON, July 10 (Reuter) -"The Times," in a leader on the forthcoming negotiations in Tokyo, reaffirms that only local questions connected with Tien tsin can properly be made the subject of the Anglo-Japanese talks and that any attempt to raise wider issues, like the general principles applying to European Settlements and Concessions in Chinese ports, would af fect the other Powers as well as Britain.

PSYCHOLOGICAL ERRORS

After enumerating evidences of Japanese non-success after two years of war, "The Times" says that it is still uncertain whether the Japanese people have yet grasped the implications of their opponents' resolution.

To the soldiers whose miscalculations, have been so costly. the foreigner is the obvious scapegoat and, yet, the real cause of the prolongation of the struggle can only be ascribed to the psychological errors of the Japanese general staff, who seem to be welding the Chinese into a nation, much as Napoleon, his armies and his puppet governments united a hitherto divided and apathetic Germany in a national resolve to throw off foreign domination.

Headley was not impressed by his array of slips, nor by the three short legs, for he at once cut him superbly, drove film to long on, and then made yet another late cut which whizzed past Hammond's feet at second slip.

R. S. Grant entered into the argument by forcing a ball from Copson with a cross-batted blow straight, to the sight screen, but he was missed at short slip when Wright, who yesterday seemed to be bowling slower, came on with the score at 41.

Bowes, who had been brought on earlier and had bowled Grant, and who was taking his time over his business and not bursting himself in an exertion for pace, bowled air and thrashed the ball away than passing mention.

Weekes had done well, even he had been a shade lucky, until he was caught at the wicket, and the game, which had become al most closed once again, became very much alive, for the West Indies were then only 27 runs ahead, and there were still 3 hours left for cricket.

Constantine decided that this was the occasion to play sedately-not even Sutcliffe could have been more tolerant to bowling. Suddenly he changed his mind, his old impulse regained possession, and he swept a ball from Wright which was pitched well outside the off stump, away to the square-leg bonnaury.

A few more eccentricities and he paid the penalty by cutting a ball

off the leg stump into Hammond's hands at short slip. That was very queer thing to do, and when J. H. Cameron played a shade too soon to be caught and bowled six wickets were down for 199 runs. Worse was to come, for one run later Headley himself hit a bal

INDIA TO LIMIT JAPANESE GOODS

SHANGHAI, July 9 (Int'l)-A more comprehensive trade agreement, which would set a definite limit on Indian imports of all types of Japanese goods is favoured by the Calcutta Indian Chamber of Commerce, according to information received here.

The present Indo-Japanese agreement, states the Indian Chamber of Commerce, being a merely barter system, between Indian raw cotton and Japanese cotton goods, does not cover the situation. Only 30 per cent of Jaof miscellaneous goods which are cotton is bound to decrease.

WEEKLY WHEAT REPORT

REYNOLDS AND GIBSON (Per Payne & Co.)

Liverpool, June 27, 1939. Liverpool - The market continues on the leasy side and further declines are shown on the week. More pressure to sell Plate wheat, persistently bearish crop news, a slow general enquiry and some "stale bull" liquidation, have been the main causes of the decline. Prices are now approaching the all time low record of 3/8 which was shown in August and September, 1931, just before this country abandoned the Gold Stan-

In the United States Winter belt, cutting is making good progress. Threshing results are satisfactory, with yields in some sections above average. The crop in the Soft Wheat areas is ripe but rains have delayed cutting. The Spring belt has had plentiful moisture.

In Canada further heavy rains have been experienced and the moisture supply in the Prairie Provinces is now reported to be above average.

The situation in the Far East has resulted in a pause in demand from that quarter, but this is expected to be only temporary and GROWER & TONIC has not led so far to any pressure to the United Kingdom.

In spite of all the bearish factors we have mentioned, we believe that purchases at these levels may yield moderate profits. July, the most critical month for growing crops, has yet to be faced. while the international situation is certainly getting no better and may become rapidly worse,

Chicago.—Stocks of wheat in Liverpool: This week 863 loads: last week 695 loads Prices declined under hedging against new crop movement and favourable weather advices. Some professional support was later forthcoming on news of unwanted rains in the HONGKONG South-West, black rust in parts of Minnesota and an improved flour demand. Sales of U.S. wheat and flour for export from July 1, 1938 to May 31, 1939, totalled 112,500;-000 bushels, of which 88,200,000 were subsidized.

Winnipeg.-Optimistic crop advices and favourable weather news carried prices to new low levels for the season. The market is rathervulnerable to pressure as there is an extremely small short interest Growing conditions are so ideal that forecasts of a crop of 400/450 million bushels are being freely circulatated.

NEW YORK COTTON

The market ruled steady at the beginning, but reacted probably on profit-taking. Traders preferred not to enter any new commitments over the week-end, and the market is at present digesting the latest crop news. Lack of buying interests in the market led to a lower adjustment of prices.

NEW YORK RUBBER

Market closed.

CHICAGO WHEAT

Prices again moved lower in sympathy with the easiness of the Winnipeg market. In anticipation of a large Canadian crop, the market is prevented from improving at present.

Malaria kills more people in one year than the war did in five. People in tropical countries are not really "lazy; they are suffering from the effects of malaria.

Lieutenant-Colonel J. A. Sinton formerly director of the malaria survey of India; expressed these views when he was speaking at the annual malaria contheir efforts in China's cause and trol course for laymen in London

The tropics are so backward because the population is ridden with malaria. The social and political advancement of people suffering from this disease seriously retarded, he added.

There was a record attendance at the course of over 200 planters. engineers, missionaries, and others who will be traveiling to malariastricken countries in many parts of the world.
